

How to open Internet Explorer in Windows 10

In the taskbar search, type *Internet Explorer* and you will see it appear in the results. Clicking on it will open Internet Explorer.

Pin IE icon to Start or Taskbar

Right-click on *Internet Explorer* and select *Pin to Start* or *Pin to taskbar*. The IE icon will get pinned.

Set IE as default browser

If you use it frequently, you can set it as your default browser via Internet Options > Programs tab > Internet programs > Set programs. Control Panel will open. You can set Internet Explorer as the default browser under *Set your Default Programs* applet.
