

With our innovations for energy supply, healthcare, urban infrastructures and industrial productivity, we provide answers to urgent questions of our time. That's why we're always looking for curious, open-minded people, people who dare to ask tough questions. Like every Siemens employee worldwide. People like you?

Siemens Graduate Program in Denmark

Job ID: 130894

Location: Denmark

Organization: Siemens in Denmark - www.siemens.com/careers/sgp

Mode of employment: Full time only

For all Siemens entities in Denmark including our four sectors Energy, Healthcare, Industry and Infrastructure & Cities as well as Cross-sector Businesses we are looking for university graduates with excellent qualifications and an interest in helping us shape the future of our company and making a difference in the world.

What are my responsibilities?

The Siemens Graduate Program (SGP) offers you the ideal start to your career and gives you a unique opportunity to prepare yourself for a successful career at Siemens. Designed as an intensive and internationally oriented two-year program, the SGP will prepare you for future leadership tasks, offering both flexibility and diverse work experiences. The program, which enables you to actively integrate your interests and your qualifications, consists of three challenging eight-month assignments, during which you'll be familiarized with at least two functional areas in one of our Sectors. One of these three assignments will take place abroad at one of our 1,700 international business locations. On the international rotation you'll get to learn about the local business and culture while taking on various responsibilities and project work. You will be assigned a personal mentor who will be at your side for the duration of the program, helping you to achieve your various objectives while promoting your development and assisting you in planning your career.

What do I need to qualify for this job?

- Master degree completed with above-average grades
- A strong academic profile, e.g. in engineering, finance, supply chain management
- Significant international experience (e.g. a min. 6 months stay abroad)
- Fluency in English; we welcome knowledge of further languages
- Relevant work experience
- Convincing personality and outstanding communicative, social and interpersonal skills
- A strong personal drive characterized by your proactive approach to take on responsibility and achieve results
- A high degree of flexibility/mobility and an interest in working in an international and constantly changing work environment
- Excellent analytical and conceptual skills
- You have finished your studies within the last year or are going to do so before October 1st 2013

What else do I need to know?

We continuously strive to strengthen our position, and we are therefore looking for bright minds eager to join a dynamic, international organization offering unique opportunities for its employees. If you meet our requirements we would be pleased to get to know you. Apply online in English for the job on www.siemens.dk/career using the requisition number: 130894. To submit your application online, please click the button "Apply". Please note that we will reply by email. Only complete applications – including CV, Cover letter, Diplomas, Grade transcripts, Certificates of Employment or Letters of Recommendation respectively - will be considered in the selection process. We look forward to receiving your online application.

Deadline for Applications: 1 April 2013
