Some of you might already be familiar with Aarhus University, therefore some parts of the programme may be less relevant, e.g. tour of campus or introduction to the digital platforms. Others might be new at AU and will have great use of all the planned introduction activities. It is voluntary whether you participate or not; via the detailed description it should be possible to assess which parts are relevant to you. Nevertheless, it is the hope that everyone will participate in as much as possible to get to know all of your new fellow students. Furthermore, your lecturers recommend that everyone participate in the introduction to the library and reference tools.

Lastly, **be sure to check your timetable regularly**. The first lessons will also be held in the same week as the intro activities. Changes to the timetables may occur during the semester, and classes will not necessarily be held at the same time and the same place every week.

Kind regards

Anna Sønnichsen  
Department coordinator, cand.mag.
