INTRODUCTION

Dear Cognitive Science students,

As a start, we would like to congratulate you on having been accepted into the international bachelor's program in Cognitive Science! WAUW! You are going to spend the next three years of your life in the “hyggelige” student atmosphere and inspiring educational environment of Aarhus University - Hurraaay!

So, what happens now? **We would like to invite you to participate in an introduction week from the 26th - 30th of August 2024.** This will help you get to know your future teachers and fellow students. We promise you this will be an adventure of a week brimming with fun activities, insights into the student life at “✨CogSci✨”, and inspiring lectures and experiments to excite your neurons. We’ve tried to create an intro week that doesn’t revolve around drinking and hope that you’ll help enforce this spirit. If you do choose to have a drink, please don’t do it before 16:00 or during any of the course-related activities. There will be opportunities to have something to drink, be it a beer or soda after 16:00 most days.

On Monday the **26th of August at 9:00**, you will meet up at a tutor’s place and eat breakfast with a group of other new CogSci students before going to the University – YAY! As for the groups, you will be divided into smaller groups which you will hear more about later. And hey, if you cannot find the correct address or... you miss the bus... Well, don’t fret, because on the next page you will see that we’ve created a list of phone numbers for all the tutors. Actually, this pamphlet is brimming with information that will serve you well, so have a good look and we’ll be seeing you in no time!

Sincerely,
Your Tutors 🧠🚀😄💖

**Why did the brain apply for a job?
To make some neural connections!**

PRACTICAL INFORMATION

On the first day, you will meet at your tutors' homes around the city, and you'll get sent information on Facebook about this as we approach the introduction week. The other days have different locations, but the building and room numbers are all specified in the program below.

During the introduction days, you will discover many places within the University Campus. We will show you where your classrooms are located, how to find the university library, and where to go to get your daily shot of caffeine. But to please your inner adventurer, we will give you these tools to guide you.

You might for example find this link to a map of the campus handy:

 [Map of Campus](#)

(Note that when looking at the map, the part of the AU campus where Cognitive Science is located happens not to be colored. It is the part called *Nobelparken* by Jens Chr. Skous Vej)

You can also download the AU Find app for Apple or Android with the following link:

 [AU Find](#)

Facebook and Facebook Messenger are some of the most used social media in Denmark. Make sure to download both if you don't have them already. [And join our Facebook group for Cognitive Science students 2024.](#) Here we will be posting updates regarding the introduction program, e.g. where your tutors live. Join the group, ask questions, and be in the loop as we'll update you continuously!

Visit the following link to get the link to the Cognitive Science '24 Facebook group:

<https://www.facebook.com/groups/813024674084206/>

TUTOR CONTACT INFORMATION

If you are in doubt about anything before, during, or after the introduction week, you are ALWAYS welcome to contact the head tutors, **Matilda** and **Thorkild** on this mail:

cogsci.tutors@gmail.com

Feel free to also contact us on Facebook! We are very happy to help you!!!!!!!

Headtutors: Matilda Rhys-Kristensen ([Facebook Profile](#) / +45 42 66 31 52) &
Thorkild Kappel ([Facebook Profile](#) / +45 42 38 16 73)

Danish tutor	Phone number	International tutor	Phone number

PROGRAM FOR THE INTRODUCTION WEEK

Below you will see the program for the introduction week for Cognitive Science. Make room in your calendar because you do **NOT** want to miss this week! It is not obligatory to participate in any of the activities although we **HIGHLY** recommended it! It is the best way to meet your fellow students, and it will give you a much better understanding of what Cognitive Science is about.

In order to participate after 16:00 during the introduction week, there is a small amount we ask that you pay to help us facilitate the activities - but more on this to come.

Top tip before the Intro Week:

On your own: We suggest that you look up bike rentals in Aarhus (You don't necessarily need a bike, but we do think it's a good idea to swap the bus for a bike, as you'll both save money and be able to ride with the rest of us when we go around the town throughout the introduction week). In need of bike rental this link will be useful: [Swapfiets](#). You can rent a bike for long periods of time with insurance for not a lot of money 😊

Remember to purchase or rent a helmet for biking as well (to protect your precious brain). 🇨🇭 🧠 ✨

✨ **Get some sleep and relax - You are going to have an amazing start at Cognitive Science!** ✨

MONDAY (26 AUG 2024)

Sober duty: Aneta (first aid) & Gloria

TIME	ACTIVITY
9.00 - 11.00	Breakfast at tutor's place (Address TBD) <i>(Bring your computer)</i>
11.00 - 11:30	Nobelparken, Building 1441, Room 112 (aud. 2) Introduction: What is Cognitive Science?
11:40 - 12:25	Name games
12:25 - 13:05	Introduction to IT
13:05 - 14:00	Lunch (Bring your own)
14:00 - 14:45	PROFESSOR TALK with Andreas Højlund
15:00 - 16:00	CogTalks
16:00 - 24:00	Board game night by BROCA's BODEGA (We will order pizzas if you need something for dinner)

TUESDAY (27 AUG 2024)

Sober duty: Anna (first aid) & Mattis

TIME	ACTIVITY
10:30	Meet up in Nobelparken at the entrance to building 1482
10.30 - 11.00	Walk to Risskov International students will be doing a Walk'n'Talk
11.00 - 12.00	Morning Gymnastics + speed dating <i>(Bring clothes you can be active in and you maybe don't mind getting dirty!)</i>
12.00 - 13.00	Fun in Risskov pt. 1
13.00 - 14.00	Lunch (Bring your own)
14.00 - 16.00	Fun in Risskov pt. 2
16.00 - 21.00	Den permanente ('The permanent') Beach BBQ and Cozy Times (dinner will be provided) <i>(Bring swimwear!)</i>

WEDNESDAY (28 AUG 2024)

Sober duty: Ane (first aid) & Sofia

TIME	ACTIVITY
8:30	Library Visit Group 1 (Meet Nobel library)
09:00	Meet up in Nobelparken, Building 1441, Room 112 (aud. 2) <i>(Bring your computer)</i>
09:00 - 12:00	Nobelparken, Building 1441, Room 112 (aud. 2) Study Group Activities part 1
11:00	Library visit Group 2 (Meet Nobel library)
11:30	Library visit Group 3 (Meet Nobel library)
12:00-12:30	Mentor group lunch (Bring your own)
12.30 - 13:15	Study Group Activities part 2
13.15-13.30	Break
13:30	AU Initiatives
13.30-13.45	Studievejledning (Student Counseling)
13:45-14:00	Information about Broca's Bodega
14.00-14:30	Arts Karriere (Arts Career)
14:30-14:45	Introduction to Basal Gang & UN
15.00-18.00	Break to get costumes, get dinner
18:00 - 24:00	Meetup at Store Torv by the Domkirke PUBCRAWL

THURSDAY (29 AUG 2024)

Sober duty: Ida (First aid) & Matilda

TIME	ACTIVITY
10:30	Meet up at Klostertorvet
10:30 - 13:00	Treasure hunt <i>(Bring clothes you can be active in and you maybe don't mind getting dirty!)</i>
13:00-13:45	Lunch in Uniparken (bring your own)
13:45 - 15:00	Talk by former students in Merete Barker auditore (1253-211)
15:00 - 17:00	Treasure hunt continued
18:00-21:00	Nobel aud. (1482-105) Voluntary Movie Night with Cog'naisseurs

FRIDAY (30 AUG 2023) Sober duty: Thorkild (First aid) & Sash	
TIME	ACTIVITY
09:30 - 12:00	Meetup all the way at the end in Aarhus Ø. Morning dip w. Introduction to BrainWaves. + Introduction to 🧠 COGSCI'S SOCIAL LIFE <i>(bring a towel and swimming gear if you want to take a dip into the ocean with us)</i> Yoga workshop <i>(bring a mat if you have one)</i>
12:00-17:00	Go home, take a nap, relax before the exciting evening
17:00 - 19:30	Pre-party & Dinner at Tutor's Place
20:00 - 02:00	Studenterhuset ✨ END OF WEEK PARTY ✨ ★ Award show ★ Dancing

Please check the weather forecast each day and dress appropriately – we will be doing activities outside, and as real Danes, we do not shy away from a bit of rain.

On Monday, you meet at the home of one of your tutors. This will also be posted on the Facebook Group as we get closer.

MORE PRACTICAL INFORMATION ON THE INTROWEEK

NEMTILMELD 

In the introduction week, it is possible to participate in tons of fun activities during the day. However, we ask you to pay a small amount of money, as this will make it possible for us to arrange an amazing and unforgettable introduction week for you. Further information regarding payment via nemtilmeld.dk will be posted on the Facebook group and sent to you by e-mail when we get closer to the introduction week, but if you are eager to throw your money at us, then here's the link:

 <https://cognitivescienceau.nemtilmeld.dk/16/> 

CONCERNS? SEND US A PIGEON, OWL, OR BRAIN WAVE!   

If you have any questions concerning the introduction days, you can ask us in the Facebook group or reach out to the head tutors **Matilda** and **Thorkild** (see page 4).

Of course, we hope and really recommend that you participate in all the activities in the introduction week, but if you are unable to participate in the whole week, try coming to all the activities you are able to. Important activities include tutor breakfast and name games on Monday, study groups activities on Tuesday, Treasure Hunt on Thursday, and most of Friday.

We want you all to feel comfortable, so take care of yourself, but remember that this week is an amazing opportunity for getting to know your fellow students and getting a good start at Cognitive Science. Although it is a long week with a lot of activities and information it is such fun and we really recommend that you prioritise it!

Concerning food during the week, there will be the possibility to buy lunch in some of the local canteens at the university, but feel free to bring your own lunchbox. We will be eating dinner together some of the days. If you have any sort of [limitation in your](#)

diet (e.g., if you are vegetarian or have gluten intolerance) please write this as a comment when signing up with Nem Tilmeld.

YOUR FIRST SEMESTER... 🏆

ECTS

Soooo... You are about to spend three exciting years at Aarhus University and during each of these years you'll obtain 60 ECTS ("European Credit Transfer System").

These are points you'll receive for completing your courses, and you can learn more about the credit system on this [website](#). This means that during your first semester you'll obtain 30 ECTS from the three following courses:

1. semester	Cognition and Communication (10 ECTS)	Introduction to Cognitive Science (10 ECTS)	Methods 1: Introduction to Experimental Methods, Statistics, and Programming (10 ECTS)
----------------	--	--	---

You can learn more about the particular ECTS credits for your courses and about the program structure and general rules from the study regulations ([Study Regulations, Cognitive Science](#)). It is necessary to read the regulations at some point as they also tell you about the content of the courses and how to pass exams, but don't worry you don't need to do it now. Furthermore, you can look up key competencies and descriptions for each of your courses.

BOOKS

At the beginning of each semester you will have to buy (or borrow) books for the courses. There are several ways to get hold of them – and we will of course help you with it. Stakbogladen (<http://www.stakbogladen.dk/>) is an academic bookshop located only a few minutes' walk from Nobelparken. There you can find many books from various study areas and you can be assisted by some very helpful staff. You can pay with your credit card (Visa, Master Card, Dankort) and get a 10% discount as a student at Aarhus University.

You can also go online to look for used books. You might find the books on <http://www.dba.dk/> or <https://www.saxo.com/dk/>. You can also go to [amazon.co.uk](https://www.amazon.co.uk) and find your desired books there.

You might also get the chance to buy books from older students via this google sheet, where you will find contact information on those who are selling:

https://docs.google.com/spreadsheets/d/1_6_KS9EA0AakpT9Tb5K6PdFxb7iFH-FvWNNbt7mktEQ/edit?usp=sharing

You will hear more about which books to buy as soon as you start your courses, so **don't worry about it for now <333**

STUDY ENVIRONMENT

Student life at Aarhus University is not only filled with lectures, seminars or group works, but also with many extracurricular activities! You can become a member of various kinds of student associations and societies (or you can start your own!), attend one of the many Friday bars at the university or join a swimming or knitting club. No matter what you decide for, getting involved is always a great idea! You will meet new students, establish friendly relationships with the university teachers and other employees and become a part of the university community.

FACULTIES, SCHOOLS AND DEPARTMENTS

Aarhus University is divided into faculties, schools and departments. The Cognitive Science Bachelor is situated at the department called LICs (Linguistics and Cognitive Science) at the School of Communication and Culture at the faculty of Arts. At the department, there are two local boards called:

UN  (UddannelsesNævn):

Where students, teachers and other university employees make proposals for decisions regarding their relevant studies. In other words, everything that has to do with examinations, lectures or regulations receives a great deal of attention here. Becoming a member, or communicating with already elected students, is a great way of obtaining knowledge about the state of matters and to share your ideas and contribute to important decisions. Furthermore, it is a great way to make contacts at the university - both with teachers and the management department.

STUDY BOARD ☕ (StudieNævn):

The Bachelor in Cognitive Science is one of the studies offered by the School of Communication and Culture (ICC or IKK). The formal body that makes decisions about the studies at the Institute level is the Study Board, where the UN is represented with two seats, one student and one staff member. Student elections take place in the fall.

BROCA'S BODEGA 🍷:

This is the Friday Bar of Cognitive Science. It is a great place to be if you want to have some fun at the end of a tough long week! You can enjoy a cold cheap beer and have a party with fellow students. The Friday Bar is hosted about five or six times each semester, alongside themed parties and other events during the semester.

The bar is located in building 1483, room number 134 at Nobelparken and we are often joined by students from the rest of Arts and other

departments of AU. You can follow Broca's Bodega on [Facebook](#) and [Instagram](#) where they announce future events!!! Fabulously, this room is used as a study room during the day where many CogSci students hangout and study!!

More information about various kinds of student associations will come during the introductory days.

ABOVE: THE UNICORN IS THE MASCOT OF OUR BELOVED FRIDAY BAR, BROCA'S BODEGA

ABOVE: COGNITIVE NEUROSCIENCE AT 4TH SEMESTER. AN fMRI STUDY CONDUCTED BY COGNITIVE SCIENCE STUDENTS!

ABOVE: EYE TRACKING WORKSHOP AT 3rd SEMESTER

COGSCI SOCIAL LIFE 🎈

A little bit about each club and some of the **tutors** you can ask if you want to know more. These are just *some* of the many clubs at CogSci. There are more out there and there's plenty of room for you to make your own club!

BrainWaves 🌊: One of the biggest and oldest clubs at CogSci! We try to meet up once a week for a morning dip in the ocean throughout the whole year! We're also up for some watersports activities every now and then. **Rahel, Sári**

Cog'n'Balls 🏀: We play a round of basketball every now and then! **Mads**

CogClimbers 🧗: Bouldering! Join this club if you're up for some (quite often spontaneous) climbing sessions at Boulders. **Mattis**

CogKnition 🧶: Whether you're a knitter, crocheter, stitcher or would like to learn, you should join the CogKnition club, where we have fun with textiles and yarn over a cup of tea or coffee. **Sári, Anna**

Cognisthenics 🤸: We meet up every week and work out the calisthenics way: outside in some bars. There's no requirement of strength at all. **Ane, Mads, Thorkild**

Cogsicians 🎵: Play some tunes with some fellow students! We go to jam sessions around Aarhus together or host our own jams or plan little concerts. **Lydia, Leo**

Cortex Concepts for Crayon Kids (C4) 🖍️: This is a club where we discuss interesting concepts from the world of Cognitive Science in as simple terms as possible to help further our understanding. **Sofia**

Gazzaniga's Gang 👯: We host activities, get-togethers and parties for CogSci students across semesters. **Lydia, Nanna**

Mind Readers 📖: A book club where we read the same books and discuss them amongst us. **Sári**

Movie-Cog'naisseurs 🎬: Watch some cool student with your CogSci friends! **Sári**

NautiNoggins 🚤: CogSci's new and yet to be organized student sailing club. We want to convince the Aarhus Sailing Club to cooperate so we can use their boats or join the club a little cheaper. Otherwise we want to plan a cool, big sailing trip together!! **Leo**

NeuroShutter 📷: Our photography club (we upload our creations on our [instagram](#)) **Aneta, Gloria**

NeuroTechX 🧠: Play around with cool CogSci technologies :) **Alexandra Sash**

GUIDANCE AND COUNSELLING

[STUDY COUNSELLOR](#) | Every study program has their own student counsellor. The student counsellor is a fellow student who is hired by the university to help and counsel other students. The student counsellor is obligated to maintain confidentiality, and you can use your student counsellor to talk about rules as well as formal stuff regarding your study program, doubts about your study, personal challenges, and lots of other stuff. You will meet your student counsellor during the intro week, and they will visit you during the first weeks of your study program to do presentations about different topics such as working in a study group.

["SPECIALPÆDAGOGISK STØTTE" AKA SOCIAL AND PEDAGOGICAL SUPPORT \(SPS\)](#) | At SPS, you can find information and guidance regarding support if you have a diagnosis. It could for instance be due to dyslexia, mental disorders, neurodiversity, visual or auditory impairment, etc. You can contact SPS already now - also if you are in doubt about whether you are eligible for support.

[STUDENT CHAPLAINS](#) | The student chaplains in Aarhus offer talks and discussion groups for students regardless of faith or religious beliefs. They also have a quiet room at Aarhus University where you can pray, meditate, or just find peace. The student priests also arrange various lectures and debate events.

[THE STUDENT COUNSELLING SERVICE \("STUDENTERRÅDGIVNINGEN"\)](#) | This is not the same as your study counsellor. The Student Counselling Service are experts in short term therapy for students at further education level. They can for instance help you if you struggle with exam anxiety, perfectionism, stress, etc.

[THE STUDENT HELP LINE \("STUDENTERLINJEN"\)](#) | Anonymous telephone hotline for students in Aarhus.

[SU-OFFICE](#) | This is the place to seek help regarding your personal SU-circumstances.

[ARTS CAREER](#) | Your career centre as a student at the Faculty of Arts. They offer individual career counselling and possibility for participating in various events all year around.

[AU ELITE SPORT](#) | Can help you if you practise sport on an elite level while studying.

[AU ENTREPRENEURS](#) | An opportunity for those students at Aarhus University who are entrepreneurs alongside their studies.

ZERO TOLERANCE

At AU, we place a high priority on treating each other with decency and respect, and we have zero tolerance of any form of harassment, bullying, violence or discrimination. No one should have to experience this - the university must be a good place to study, work and play for all students and employees. We have a shared responsibility to create a positive and well-functioning academic environment and work environment.

If someone behaves unacceptably to you, AU encourages you to seek help and support. You have several options, all of which you can read about at AU's ["Zero Tolerance"-page](#).

TIPS AND TRICKS

It is normal to be a bit confused about the introduction week since so many new things are happening. Maybe you just moved to Aarhus and have to get used to living away from your family and friends. Moreover, you have to meet your new study colleagues and get to know the university. Therefore, we put together a little list of tips, tricks and practical information to help you get the best start possible.

BEFORE THE INTRODUCTION WEEK

1. Download the AU Find-app on your smartphone. This will help you to find the right buildings.
2. Consider getting a bike if you don't already have one. Most Danes go everywhere by bike.
3. If you have to use public transport, Rejseplanen (for planning) and Midttrafik (for buying tickets) are really good help to plan your travels by bus and train.
4. Did you remember to apply for [SU](#) and [boligstøtte](#)?¹ Otherwise, do it!
5. Remember to join the [Cognitive Science '24 group](#)
6. If you live by yourself, remember to clean the apartment, wash your clothes and buy groceries, snacks, toilet paper and shampoo for the entire week. It is very likely that you will not have the time nor the energy to do these things during the introduction week. Check the program, as we will provide breakfast and dinner some of the days. Otherwise, it will be good to bring lunch, if you do not want to buy food in one of the cafeterias at the university.
7. Remember to not make any other plans during the week. It is highly recommended to participate in the full schedule of the introduction week, as this is a perfect chance to get to know your new classmates and make memories for life.
8. Skim the program. Do you have some gym clothes that you do not mind getting wet and dirty? Everyone is encouraged to go all-in during the introduction week, so be prepared!
9. Be excited! We have an amazing program planned for you, and we are looking forward to meeting you!! <33

¹ SU: State educational grant (NB!! different rules for internationals);
Boligstøtte: Financial housing support

DURING THE INTRODUCTION WEEK 🤖

1. Come as you are and be yourself. The week is very relaxed, so just wear something comfortable. There will be plenty of opportunities to dress up for the parties!
2. Remember to check the weather forecast and be prepared – we will probably still go through with the fun outside activities even though it is windy and a little rainy.
3. Be open minded. We know it can be scary at first, but remember that everyone else is in the same boat as you, so do not be afraid to talk to your fellow students. You never know who might become your future best friend.
4. Participate in as many activities as you can. We are well aware that there are many things happening and that it might be a bit overwhelming – but we are here to help you and hope to see you for all the activities.
5. Ask the tutors – we are here to help and support you!

AFTER THE INTRODUCTION WEEK 😊

1. We will help you buy the books in time, so you do not need to worry about this. The total price for the books for the 1st semester will be about 1500 DKK tops.
2. You are probably very excited to learn about the brain and the human mind! However, remember that the social aspect of university is very important for your future comfort on the study.
3. Even after the introduction week, you are still very welcome to contact us tutors. We are here to help and give you an amazing start at the university – so do not hesitate to contact us! You can also come over for a beer in the Friday bar!
4. Don't worry that you will never see us (the tutors) again – we will arrange more events for you after the introduction week!

IT SYSTEMS AND AU LINKS

AU STUDYPEDIA

[AU Studypedia](#) is an academic study tool which you can use throughout your time at university. On this website, you can find lots of great tips and tricks on what it means to be a university student. This includes tips about study habits, how to take notes and learning about the formal requirements of your exams. AU Studypedia also has a whole section for new students where there are tips and good advice to help you get started as a university student.

[Course Catalogue](#) | The Course Catalogue (*Kursus Katalog*) is a place to go if you want to learn more about your current or future courses. All you need is to type the name of a particular course into the search field.

All about IT!

We will go through IT with you on Monday, so there is no need to stress too much about it! You can find an overview of ALL things related to AU IT here: [CogSci IT Life Hacks](#). This document includes info on how to order a student card, how to access your student mail, syncing your calendar with your university schedule, accessing WIFI and more!! The most important links and information are also down below:

1. [mitstudie.au.dk \(MyStudiesAU\)](#) | Collection of websites and other useful self-access systems. Includes things such as your weekly schedule, AU mail, links to other important sites and much more! In fact, you only ever need to log onto Mystudies.au.dk as you can access everything you need as a student from this platform!
2. [Brightspace](#) | An e-learning platform where your teachers upload materials (e.g., course syllabus, readings, assignments etc.) and other relevant information about your courses.
3. [Student Self-Service \(STADS\)](#) | The place where you can access exam results, order grade transcripts and more! This is also the place to go if you need to register for courses or exams at some point during your time at university. For more info, see the [guide to STADS](#)
4. [Studyportal Arts](#) | Faculty-specific site with all relevant information about courses, exams, rules and regulations (and much more!).

5. [Eduroam](#) | You can use AU's wifi, eduroam, for free. Simply log onto the network by choosing "Eduroam" from your list of wifi networks and log in with your AU ID **au<AUID>@uni.au.dk** (e.g., au123456@uni.au.dk).
6. [Zoom on AU](#) | The primary tech-solution which AU uses for online teaching and digital exams. You should always use the official AU zoom and not the free version.
7. [Software for Students](#) | As a student on AU you can get a bunch of free software or software with a discount!
8. [IT-support](#) | If you experience technical problems, you can go to Arts IT-support for help. They may be busy during the first few weeks of the semester, so please be patient <3

OTHER HELPFUL LINKS

[DMI Aarhus](#) | Even though our introduction days take place at the end of summer, the sun in Denmark should not be taken for granted! We will spend a great deal of our afternoon activities outside in the University Park. Remember to check the weather forecast before you leave in the morning.

NEW IN AARHUS?

[VisitAarhus](#) | VisitAarhus is a page where you can find tips and information about great places in Aarhus. Are you in doubt about what to do during the weekend? Would you like to explore Aarhus? Would you like to discover a new café or bar? Then use this as your inspiration.

[International Center](#) | The International Center provides services to all international students and staff. They can help you with housing issues, give you support for your visa or provide you with information about free Danish language education.

[Lær Dansk!](#) | LærDansk is the biggest Danish language network with language centres located in 20 municipalities. You have a wonderful opportunity to learn Danish, make new friends, and establish important connections.

[International Community Aarhus](#) | The International Community is an expat organisation that provides a wide range of events, seminars and online activities.

[Jobindex](#) | Finding a job in Denmark is not easy, especially if you don't speak Danish. However, it is not impossible! You can use the JobIndex webpage to get yourself

familiar with the Danish job market and explore current offers of student jobs or calls for internships. Remember however that your study is a full-time activity.

LIBRARIES

[AU Library](#) | The university library and its resources are accessible via this link. You will get an introduction tour with one of the library employees as part of the introduction program.

[Nobelparken - AU Library](#) | The library at Nobelparken, which you will visit in the introduction week.

[Det Kongelige Bibliotek](#) | Another library we will show you.

[Search, find, and borrow materials from Danish libraries](#) | You can also borrow books from various libraries all over Denmark. You can use their services after you obtain your Danish CPR number.

LEO AND SOFIA'S AARHUS GUIDE

You're new in Aarhus and maybe even Denmark: Where do you get your bread, your butter and your shampoo? We've tried to create a short little guide to help you find our favorite places!

 Leo and Sofia's Aarhus Guide

    SEE YOU IN AUGUST!
