<p>3. Orientation and updates about the situation for students at Russia studies (14.20-14.30)</p>	<p>Uwe Skoda gave UN a status about the situation for the students from Russia Studies that have been abroad in Russia and are back in Aarhus. There have been a lot of concerns about the student’s safety and well-being and the students were asked to come home. All the students have now been offered alternative courses and options placed in Aarhus. Uwe Skoda thanked all the teachers at Russia Studies for acting quick and under a lot of pressure, to find solutions for the students.</p> <p>There are still a lot of questions about the future planning for the students at Russia Studies and their options for going abroad.</p>	

<p>4. Evaluation of project placement (item for discussion) (14.30-14.50)</p>	<p>The UN discussed and commented on the evaluation of Project Placements for E21 from students and project hosts. Project coordinator Vladimir Douglas Pacheco Cueva gave a brief presentation of the written summary of the evaluations (appendix 4.3).</p> <p>Some general points from the evaluation were discussed:</p> <ul style="list-style-type: none"> - The students are overall happy with the project placement, but some students commented that they wished for a clearer description of their assignments from their hosts. - Some students wish for more supervision during the project placement, currently the main supervision there is regarding the final reports that they must write. - The UN discussed whether the submission day could be moved to January. The current submission date is in December for the whole faculty of Arts and for some students it's a problem because it gives them a short period to write the report. Some of the teachers pointed out that if the submission date is to be moved it could interfere with the Master Thesis, which some students begin writing in January. <p>Uwe Skoda will take the main points from the discussion back to the Board of Studies for the meeting in April. Where he will also clarify the UN's questions regarding the exam dates, the placement of the project placement, what the procedure is on other degree programmes and the options for moving the dates.</p>	
<p>5. Discussion regarding the submission deadline for reexamination in the BA-project (item for discussion) (14.50-15.00)</p>	<p>The Board of Studies has urged the UN to discuss the deadline for submission of the reexamination for The Bachelor project. Because some students have expressed that they find the period between the assessment deadline for the ordinary examination attempt and the deadline for the reexamination on The Bachelor project relatively short.</p> <p>The UN had no comments to the item and Uwe Skoda will inform the board of studies about this.</p>	<p>Uwe Skoda</p>

They noted that it is important that this course is not too abstract but it’s also important to introduce the course if the programs wish for it. It is a balance between these two considerations.
