

Course	ECTS	Primary programme	Language of instruktion
Computational Geometry: Theory and Experimentation	10	Computerscience (Datalogi)	English
Augmented Reality	5	Computerscience (Datalogi)	English
Building the Internet of Things with P2P and Cloud Computing	10	IT-Product Development (It-produktudvikling)	English
Distributed systems and security	10	Computerscience (Datalogi)	English
Theory of Algorithms and Computational Complexity	10	Computerscience (Datalogi)	English
Data Visualization	10	Computerscience (Datalogi)	English
Data Mining	10	Computerscience (Datalogi)	English
Advanced Data Management and Analysis	10	Computerscience (Datalogi)	English
Interactivity and Computer Mediation - Concepts, Theories, Methods, Cases	10	Computerscience (Datalogi)	English
Designing Interactive Technologies	10	Computerscience (Datalogi)	English
Multimodal Interaction	10	Computerscience (Datalogi)	English
Program Analysis and Verification	10	Computerscience (Datalogi)	English

Note: These courses are some examples that the CE students could take as elective course but require 'forhåndsgodkendelse'.
