Full time study, <http://www.uq.edu.au/study/index.html?page=4312&>

A standard full-time load is equal to 16 units (often expressed as #16) of study per year (this usually means 8 courses per year), or 8 units of study per semester (this usually means 4 courses per semester). Three-quarters of a standard full-time load per semester would therefore mean 6 units (this usually means 3 courses of 2 units each).

However, for students endeavouring to improve their entry score for upgrading purposes, one full-time year of study means a minimum of 16 units (8 courses) of study at UQ.

Across all faculties and programs students will be able to enrol in a maximum of 8 units for each of first and second semesters and 6 units maximum in the summer semester.

Standard work load per semester, <http://www.uq.edu.au/myadvisor/enrolment>

**A standard semester workload is 8 units (#8)\*. Full-time enrolment is 6 units (#6) or more per semester.**

A standard full-time load is 8 units per semester in most programs. International students studying in Australia must be enrolled in 8 units per semester.
