Program for the Intro Days for International Bachelor Data Science Students

Welcome to Data Science

On the following pages, you will find the program for your three introduction days from August 20-22, 2025.

It is important that you bring your laptop for Thursday's IT Introduction. You will not need it for Wednesday and Friday's program.

To find your way around, you can look up building numbers on AU's building map or using [AU Find](#) for Android/iOS.

Also, remember to mark the weekend of September 5-7, 2025, where our social weekend takes place. You will hear more about this during the Intro Days.

If you have questions about the program or the start of studies, you can contact your mentors here:
