Note: Some courses are part of multiple recommended course combinations

E: Efterår/Autumn	Ecophysiology
F: Forår/Spring	Ecology
S: Sommer/Summer	Biodiversity and evolution

	Course Title	Semester	ECTS	Courses as a part of the recommended course combinations: Ecophysiology		Ecology		Biodiversity and evolution	
				Constituted	Suggestion	Constituted	Suggestion	Constituted	Suggestion
Bachelor Courses	Aquatic Biology	E	10			x			
	Bioinformatics and Programming	E	10	x		x		x	
	Conservation Genetics and Molecular Ecology	E	10	x				x	
	Management of Danish Nature and Environment	E-Q1	5			x			
	Geographic Information Systems (GIS)	E-Q2	5			x		x	
	Microbiology: Microbial Physiology and Identification	E	10	x					
	Ecotoxicology	E	10	x					
	Behavioural Biology	F	10					x	
	Danish Flora and Vegetation	F	10			x		x	
	Animal Ecophysiology	F	10	x					
	Microbial Ecology	F	10			x			
	Plant Ecophysiology	F	10	x					
	Arthropods' Ecology and Diversity	S	5					x	
Master Courses	Bio-Entrepreneurship	E	10						
	Biogeography and Macroecology	E	10			**x**		**x**	
	Bioinformatics Analysis of Genomics Data (MOL)	E	5		x				
	Conservation Physiology	E	10	**x**			x		
	Experimental Evolutionary Biology	E	10	**x**				**x**	
	Freshwater Ecosystems	E	10			**x**			
	Environmental Management of Aquatic Ecosystems	E	10			**x**			
	Evolutionary Thinking (BiRC)	E	10	**x**				**x**	
	Microbial Element Cycling and Population Ecology	E	10			**x**		**x**	
	Host-microbe Interactions (MOL)	E	10	**x**					
	Statistical and Geospatial Modelling	E	10			**x**		**x**	
	Tropical Ecosystem Management and Human Security	E	10						
	Advanced Genomic Analysis (BiRC)	E	10		x				x
	Cell Biology in Health, Ageing and Disease (MOL)	F	10		x				
	Experimental Physiology	F	10	**x**					
	Experimental Coastal Ecology	F	5		x	**x**			
	Wildlife Ecology and Management	F	10				x	**x**	
	Global Change Biology	F	10	**x**		**x**		**x**	
	Marine Ecosystems	F	10			**x**			
	Metabolism - Concepts and Design (MOL)	F	10	**x**					
	Molecular Microbiology	F	10	**x**				**x**	
	Plant Biology and Technology (MOL)	F	10	**x**					
	Environmental Governance: Policy Processes and the Economic Dimension	F	10						
	Population Genomics (BiRC)	F	10		x				x
	Advanced Behavioural Ecology Field Course (in May)	F	5						x
	Advanced Water Cycle Management (Bio- & Chemical technology)	S	5				x		
	Flora and Fauna Identification in Freshwater	S	5				x		x
	Biological Project (5, 10 or 15 ECTS)	F / E			x		x		x
	Vocational Training Project (15 or 20 ECTS)	F / E			x		x		x
Master Courses in Greenland	Arctic Microbial Ecology (3 weeks)	F	5						
	Arctic Marine Ecosystems in a Changing Climate (May-July)	F	10						
	Greenhouse gases and climate effects in the Arctic (April-May)	F	10						
	Sea Ice Ecology (Feb-Mar)	F	5						

MOL: Department of Molecular Biology and Genetics	E: Efterår
BiRC: Bioinformatics Research Center	F: Forår
	S: Sommer
