## **PART ONE - DESCRIPTION OF EXAMS**

For a closer description of exams - see the Course Catalogue.

### **EXAMINATION**

A teacher will assess the written exams according to the 7-point scale. However, test 1 (*Bookkeeping*) in *Cost, Operations and Supply Chain Management* will be assessed passed/not passed.

The teacher and an external examiner will assess the group assignment and the oral test in *IT in Business* according to the 7-point scale. The oral test is passed in English.

The assignment and the oral test in *English Language Proficiency and UK/US Society* will be assessed by the teacher and an internal examiner according to the 7-point scale. The oral test is passed in English.

Where written tasks or exams are concerned, the professional assessment reflects the linguistic clarity and skill by which the professional substance is expounded. By the assessment of the thesis the linguistic clarity and skill may, under special circumstances, be subject to independent evaluation.

### **SUPPLEMENTARY MATERIAL**

It appears from the course descriptions whether supplementary materials are allowed and what supplementary materials are allowed. By written exams where no supplementary materials are allowed the student is allowed to bring a pocket calculator. The pocket calculator's memory must be empty at the beginning of the test (spot checking will be made).

## **PART ONE - EXAMINATION RULES AND REGULATIONS**

### **PART ONE - EXAMS**

During the first year of study the student **must** participate in all Part one-tests.

Failure to appear at a midterm exam/exam implies exclusion from the study.

### **MINIMUM REQUIREMENTS FOR PASSING THE EXAMS**

To pass Part One a minimum average mark of 2.0 must be obtained. The minimum mark that is required in each separate exam/mid term exam is 00. The general average is calculated according to the weighting system indicated in the index of exams.

Once the entire Part One exam has been passed, it is not possible to participate in any further Part One exams even if the mark in one or several individual exams is 00.

Part one must be passed before the end of the second year of study.

**It is recommended that the student has passed Part one before starting on Part two. If the student contemplates starting on Part two before having passed Part one the student should contact the Student Counsellor before making a final decision.**

### **RE-EXAMINATION**

Students may only participate in any exams three times. Under certain circumstances, The Study Committee for Undergraduate Programmes may allow participation in an exam for the fourth time.

As for the exams in *Cost, Operations and Supply Chain Management* and *Mathematics* the below mentioned rules must be observed:

- re-examination is not possible in a sub test where the grade 02 or above has been obtained
- re-examination is not possible in sub tests where the grade 00 has been obtained, if the weighted average mark awarded is 02 or above
- the student must participate in a re-examination in a sub test where the grade -3 has been obtained regardless of the weighted average mark.
- Re-examination in sub tests is not possible until the weighted average mark exists.

The last result obtained in any exam will always be the valid one - even if the last result is inferior to the one previously obtained. Please note that if your name has been taken down as “absent” you will have missed one of your three attempts at passing an exam, and the result will be registered as the last one obtained in that exam.

In connection with all Part one-exams it is possible - besides participation in the ordinary exams - to apply for re-examination in February/August.

Participation in the ordinary exam is a prerequisite for applying for participation in the re-examination in February/August.

Re-exam in *IT in Business* and sub test 1 in *Cost, Operations and Supply Chain Management (Bookkeeping)* will be carried through in February while re-exams in the remaining tests will be carried through in August.

By re-examination in February the test in *IT in Business* is carried through as an individual 72 hours home assignment.

#### **REGISTRATION AND CANCELLATION**

Registration for the exams takes place automatically the first time whereas it is the student's own responsibility to register for re-examination or make-up examination.

The deadlines for registration for re-examination or make-up examination in February/August will be announced on CampusNet. Deadline for registration for re-exam at the summer exam is 1 March while the deadline for registration for re-exam at the winter exam is 1 October. If the student has participated in the classes as repeater, registration for the exam in question takes place automatically.

Whether registration for exams has taken place automatically or by the student him/herself it is the student's own responsibility to check that the registration has actually taken place. If any errors are noticed in connection with the registration, the Central Registry has to be informed about it before the deadline stated.

Registration for exams included in the automatic registration cannot be cancelled. Applications for re-examination can be cancelled by inquiring at the Central Registry no later than one week before the exam was supposed to have taken place.

#### **ILLNESS, ETC.**

Provided illness etc. prevents the student from participating in or completing an exam or seminar and provided that the student applies for it, the Study Committee for Undergraduate Programmes may permit cancellation of this exam and may permit re-examination at a special make-up exam - or delayed handing in of a seminar.

Any application claiming illness must be accompanied by a medical certificate, which must cover the day or period in question and must be issued on personal request to the doctor on the same day as the exam or handing-in was supposed to take place.

## RULES FOR HANDLING EXAM REGULATION VIOLATIONS

Violation of examination rules and regulations during written or oral exams (including seminar papers and reports in *IT in Business*) leads to expulsion from the exam, and in such cases the Dean (Head of School) may decide to expel the student from all exams at the term in question. In very serious cases the Dean may decide to relegate the student completely.

## EXAMINATION REGULATIONS

As for the written exams a number of practical rules have been adopted. These are stated in *Examination regulations for studies in Business Administration*.
