

To external supervisor

**Letter of engagement for the vocational internship for students at  
Department of Public Health, Sports Science, Aarhus University**

Stud.scient. \_\_\_\_\_ has informed us, that  
you have accepted to engage her/him in an internship with a duration of 5 or 8 weeks.

We are happy that you will participate in the vocational internship in Sports Science at the  
Department of Public Health, Aarhus University. We hope that you will experience the internship  
as “a breath of fresh air”, and that both parties will find the internship fruitful.

Our previous experience is that the students find the internship very valuable and inspirational.  
[Here, you can find a list of previous internships, and the poster that your student will make as  
part of the internship.](#)

The internship will start in the beginning of either the spring or autumn semester and the average  
weekly working hours of the student will be 37 hours.

The student must choose an internship that is either 5 weeks (15 ECTS) or 8 weeks (20 ECTS)  
long.

You can read more about the internship in the course catalogue of Aarhus University:  
[kursuskatalog.au.dk](http://kursuskatalog.au.dk) – search for ”Erhvervsrettet projektforløb i idræt”.

It is important that the external supervisor and the student accept the requirements in the above-  
mentioned course description before they sign this letter of engagement and return the letter per  
e-mail to the person responsible for the course - see contact details below.

External Supervisor’s name, e-mail and phone number:
